EDUCATION

The American college

B.Sc in Mathematics

April 2023 | Madurai, TN, India

Cum. GPA: 6.9 / 10.0

Major GPA: 6.9 / 10.0

The Hindu Hr.Sec School

HSC

March 2020 | Watrap, TN, India

The Hindu Hr.Sec School

SSLC

March 2018 | Watrap, TN, India

SKILLS

PROGRAMMING

- Core Java
- HTML5
- Javascript
- CSS3
- Typescript
- Sass
- React.js 18
- Tailwindcss
- MySQL
- Bootstrap 5
- Data Structures and Algorithms

Development Tools:

- git
- Github
- Firebase
- VS code

Familiar:

- Java (Oop's)
- Tailwindcss
- Typescript
- MySQL

STRENGTHS

- Quick Learner
- Team Worker
- Hard-working Person
- Ability to grasp the new skills quickly.
- Excellent knowledge of Core subjects.

PROFILE

As a recent graduate with a strong foundation in **Java** and **TypeScript**, I've gained practical experience from projects like **Netflix Clone** and **Crypto Price Tracker**, both developed with **React.js** and **Tailwind CSS** and integrated responsive **APIs**. Proficient in database management using **MySQL**, I'm enthusiastic about software development. I'm eager to apply my skills to innovative solutions in a dynamic, collaborative environment while remaining committed to continuous self-improvement.

PROJECTS

Netflix | Clone website

Tech Stack | React.js, Redux, Firebase, Tailwind css, TMDb APIs.

- Developed a Netflix clone web application with a focus on user experience and responsiveness. Implemented user **authentication** with responsive **sign-in**, **sign-up**, and **sign-out** functionality. Ensured **full responsiveness across various devices and screen sizes**, enhancing user accessibility and engagement.
- This project showcases my skills in **web development** and user interface design, including my proficiency in React.js and Redux for **state management**, Firebase for **authentication**, and Tailwind CSS for **responsive styling**. The integration of the TMDb **API** enriched the content library with up-to-date movie and TV show data, making it a feature-rich Netflix clone.

Coiner | Crypto Price Tracking Website

Tech Stack | React.js, Tailwind css, Rapid APIs.

- Developed "Coiner," a comprehensive web application to provide **real-time data** on **cryptocurrencies**, **exchanges**, **NFTs**, and crypto-related **news**. Integrated the Rapid API to source **up-to-date information** on cryptocurrencies, exchanges, NFTs, and crypto news, offering users the latest insights in the crypto world.
- This project highlights my proficiency in React.js, responsive web design with Tailwind CSS, and the integration of **external APIs** to provide **real-time data**. "Coiner" serves as a valuable resource for individuals interested in cryptocurrency investments and the latest developments in the crypto space.

Portfolio | Portfolio website

Tech Stack | React.js, Tailwind css, Framer-Motion, AOS

- Designed and developed a portfolio website to **showcase my skills, projects, and accomplishments** using a **modern tech stack**. Created a responsive design that ensures optimal performance on various screen sizes, offering a seamless browsing experience on both desktop and mobile devices.
- This project is a testament to my proficiency in web development using React.js, my ability to create visually appealing and responsive designs with Tailwind CSS, and my knack for **adding engaging animations** using Framer Motion and AOS. The website not only reflects my skills but also offers a gateway to **explore my works** and contact me for **potential opportunities**.
