Front-End: ReactJs, NextJs, Redux, Tailwindcss, Bootstrap, HTML5, CSS3, Sass

Back-End: Spring-boot, Hibernate, MySQL, NodeJs, ExpressJs, Prisma, AuthJs, Firebase, Convex

Technologies & Tools: Git & Github, Jira

PROJECTS

Portfolio

[Github](#) | [LiveDemo](#)

Front-End Project

Reactjs-18, Typescript, Tailwindcss, NextUI, EmailJs

- Constructed a personalized portfolio website utilizing React.js 18, showcasing dynamic content and seamless navigation.
- Utilized Tailwind CSS to create a visually appealing interface, ensuring responsiveness across various devices.
- Integrated EmailJS for effortless communication, enabling users to easily reach out and inquire about opportunities

Threads-Clone

[Github](#) | [LiveDemo](#)

Full-Stack Project

NextJs-14, Typescript, Tailwindcss, AuthJs V5, PostgreSQL

- Integrate AuthJS v5 for secure user authentication, covering registration, login, and logout functionalities.
- Create features for users to post threads, comment on threads, and share threads publicly or privately.
- Craft seamless navigation, ensuring users can easily interact with threads, comments, and account settings.

Udemy-Clone

[Github](#) | [LiveDemo](#)

Full-Stack Project

NextJs-14, Typescript, Tailwindcss, Clerk, Stripe PostgreSQL

- Autonomously developed a dynamic Udemy clone website, implementing robust functionalities and role-based authentication.
- Utilized Next.js 14 and Tailwind CSS to achieve efficient server-side rendering and visually appealing UI.
- Implemented seamless connectivity to PostgreSQL using Prisma ORM, coupled with Stripe for robust and secure payment processing, ensuring a 100% success rate. This integration significantly elevates the overall user experience.

Notion-Clone

[Github](#) | [LiveDemo](#)

Full-Stack Project

NextJs-14, Typescript, Tailwindcss, Clerk, Convex

- Devote effort to integrating collaborative features, enabling (C.R.E.D) operations to manage workspaces seamlessly.
- Prioritize a user-friendly interface to ensure an intuitive note-taking experience with multimedia support.
- Integrate advanced authentication mechanisms using Clerk for robust data security.

Dropox-Clone

[Github](#) | [LiveDemo](#)

Full-Stack Project

NextJs-14, Typescript, Tailwindcss, Clerk, Convex

- Enable users to enjoy an unrestricted and 100% secure file upload experience, fostering seamless data management.
- Implement a user-friendly interface designed for intuitive navigation and efficient file organization.
- Utilize Convex, Implemented advanced features for seamless file management.

EDUCATION

The American college,
B.sc, in Mathematics

Madurai, TN, India
2020-2023

The Hindu Hr.sec School,
HSC in Computer & Mathematics

Watrap, TN, India
2018-2020

STRENGTHS

- Adaptable
- Diligent
- Open-minded
- Team Player
- Analytical Thinker
